

How to order Maintenance Kit

All Special Springs nitrogen cylinders are permanently laser marked for easy and long lasting identification and traceability.

Model code
 Safety pictograms
 Serial number
 Production date
 Man. Code
 General info
 PED Category
 Number of seal replacements
 Maintenance Code

To order a maintenance kit, you are requested to communicate the **Man. Code**, generally marked on the bottom of the body, to your Special Springs supplier.

HOW TO ORDER

example: 39BMRV01000C

If the **Man. Code** is deteriorated or is not redable, you are requested to communicate the **Serial Number** (it may start with **SN...** or **bn...**) to your Special Springs supplier.

HOW TO ORDER

example: bn247813

or

example: SN265726001
